

High Frequency Sight Words Activity 1: Sight Words Detective*that**go**of**go**go**of**that**of**that**of**that*

INSTRUCTIONS:

Print out the magnifying glass onto sturdy paper or cardboard and cut out.

OR you could print it out on regular paper and glue it onto a piece of cardboard from something in your recycling such as a breakfast cereal packet. Then cut out.

* Don't forget to carefully cut the inside of the magnifying glass so your child can use the hole to identify the words they are searching for.

Instructions: For each word, the child should be supported to see the word, say the word, trace the word, say the word, copy the word and say the word. Not all words need to be done at the same time. This activity can be spread over a couple of sessions.

See – say – trace – say – copy – say
